To all shippers, exporters, forwarders, traders

Please see below RELEASE issued by CNCC/CNSC in Douala.

Douala, 7 December 2022

RELEASE

The General Manager of the Cameroon National Shippers' Council (**CNSC**) wishes to inform shippers, ship owners, freight forwarders and other business persons that the cost for the regularisation of an Electronic Cargo Tracking Note (ECTN) will be increased to 200% of the ECTN value as from 1 February 2023.

This is because there has been an abnormal increase in the number of Regularisation ECTNs issued in recent months, despite all the awareness-raising activities undertaken by the CNSC.

This growing trend evidenced by the increasing number of Regularisation ECTNs is not compliant with the provisions of Ministerial Order No. 00557/MINT of 11 July 2006, establishing the ECTN, modified and supplemented by Order No. 000289/MINT of 5 March 2007, instituting the ECTN as an anticipatory document.

As a reminder, ECTNs for imported goods must be obtained from CNSC agents at the port of loading no later than 48 hours before the arrival of the ship at a Cameroon port.

The General Manager of the CNSC is counting on the understanding and collaboration of business persons to put an end to this growing trend.
